OBJECTIVE

Computer Science student skilled in backend development, real-time applications, and machine learning. Experienced in building scalable systems and leading development teams. Seeking an entry-level backend developer role to apply expertise in Node.js, REST APIs, and database management.

TECHNICAL SKILLS

Programming & Backend: JavaScript, Python, Node.js, Express.js, MongoDB, REST APIs, WebSockets, Authentication, Event-Driven Architecture

Tools & Technologies: Git, GitHub, Postman, MS Excel (VBA), Scikit-learn, Pandas, NumPy, DaVinci Resolve, CapCut, AI-assisted development (Claude, Google Stitch)

PROJECTS

Real-Time Chat Application (Socket.io) — *Team Lead* | [Live](#) | [GitHub](#)

- Developed a real-time chat application using Node.js, Express.js, Socket.io, React.js, and MongoDB with WebSocket-based instant messaging.
- Solved the problem of delayed communication by implementing real-time messaging, online user tracking, typing indicators, and instant message updates.

Expense Tracker | [Live](#) | [GitHub](#)

- Built a full-stack expense tracking application with CRUD operations, real-time data management, and a clean, intuitive UI.
- Solved the problem of manual expense calculation by allowing users to record, manage, and track expenses digitally in an organized way.

House Price Prediction Model | [GitHub](#)

- Built a regression-based machine learning model using Python, Pandas, NumPy, and Scikit-learn to predict house prices based on property features.
- Solved the problem of inaccurate manual price estimation by using data-driven prediction techniques to generate more reliable property price estimates.

EXPERIENCE

Freelance Web Developer

2024 – Present

Self-Employed

- Developed and deployed responsive business portfolio websites using HTML5, CSS3, JavaScript, and Bootstrap.
- Live: [Portfolio Website](#)

Freelance Video Editor

2022 – Present

Self-Employed

- Edited client projects using DaVinci Resolve and CapCut for social media and promotional content.

Operations Assistant

Jun 2023 – Dec 2023

Part-Time

- Processed tender documents and automated billing workflows using Excel VBA macros.

LEADERSHIP

Video Head — MediaScoop Club, GLA University | Managed video production, team coordination, and content delivery for club events and campus media.

EDUCATION

GLA University

Expected 2027

Bachelor of Technology in Computer Science Engineering | CGPA: 7.16

Mathura, UP

JSB Public School (CBSE)

Class 12: 84.4% | Class 10: 72.8%

CERTIFICATIONS

AI/ML Project-Based Learning — Jovac [View Certificate](#) *Fast learner; leverages AI tools to enhance development efficiency and code quality.*
